Modular Series

Cellia Modular | Kare Modular Metal | Kare Modular | Millanta Modular

Concept Designs Specific to Modern Spaces

The Makel Brand has created Modular Series that meets of the aesthetic and the quality, in order to fulfill today's expectations by adopting innovative understanding as a principle.

With the growing importance of technology in recent years in our lives, the fast-developing modern architecture and residential lifestyle, accordingly the increased use of technological products, became the main factor which steers the Makel's new design.

The Modular Series Switch Group that produced in this sense and allows the use of a combination of a greater number of switch functions at narrow area, is crucial in terms of respond to diverse needs at the same time on functionality.

As well as Modular Series' modern emphasis, one of its eye-catching decorative features is decoration of living place with soft, blue or, preferably, a neon light which filtered from thin LED light bands located on the switches.

The Modular Series Switch Solutions that are being used in Europe for many years and started to be applied in Turkey, take place in many of today's new and modern construction projects. For the application of Modular Series Switch known as Italian type, the flush mounted junctions on walls must be specially prepared. If the walls of where you live, are not appropriate for this, it allows making application of the modular series by using special frames without any changes to the existing system.

Cellia Modular enchants those who saw to itself with glitter of used metallic materials, and a modern character consisting of combined with thin, soft lines and soft colors.

Technical Data

- Switches 16 AX 250 V-
- Socket outlets 16 A 250 V-
- Screwed and screwless cable connection,
- Polycarbonate body and support,
- Ø 60 mm compliant with German standards, able to build single and multiple frame with both screwed and claw system with 2M carcasses on flush mounted cases (2M, 2x2M, 3x2M, 4x2M).
- Easy installation of the module on support and disassemble with a screwdriver,
- All socket outlets with child protection,
- Special designed cases allowing cable connection from all sides,
- 1M module TV-SAT socket,
- Frames can be changed without removing supports and modules,
- Supports are suitable with all Italian type cases,
- 1M - one module 22 mm,
- 2M - double module 44 mm,

Assembly method appropriate to flush mounted plug-in circular cases

* Support with claws also available for 2M
